# Support Services From Firsthand Experiences

## Supporting Families

Having support and guidance as a parent is so important when navigating the complex child-serving systems.

**Outreach Specialists** help navigate the various systems and services available for children. The goal is to walk alongside caregivers during the advocacy journey and connect families with the most appropriate services in local communities.

## Supporting Community Partners

Discover the Power of Family Peer Support.

Every family deserves the resources and support necessary for success. We work together with **schools, courts, providers, community partners**, and **policymakers** to provide training and support for the families. Collaboration unlocks a world of resources, advocacy, and community to help families thrive.

**"You helped me more than you could possibly know throughout these years and I truly am so grateful."**

-Firsthand Experience Parent, Sonya L

## Services

### ADVOCACY CONNECTION TO RESOURCES TRAINING FOR PARENTS & PROFESSIONALS

**"You are what an advocate should be. You understand both sides (family and school) and work for what is best for the child."**

*-School Psychologist, Tanya B.*
